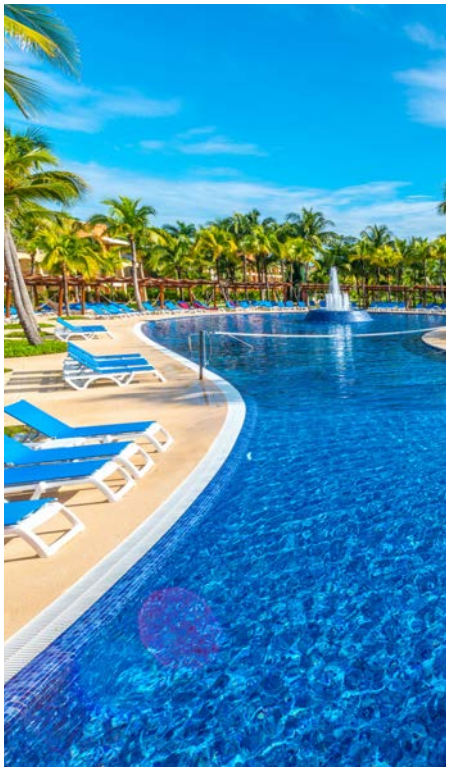
VIP TURNKEY SOLUTIONS

THE LEISURELINE ADVANTAGE

Rapid installation – spray applied and seamless

VIP Leisureline systems are spray applied and seamless, instant curing solutions for containment and long term substrate protection of valuable water park assets.



Design

VIP Leisureline systems can be applied to almost any substrate of complex design including easily dressing over plinths, corners and parapets. The flexible spray applied material adjusts perfectly to the geometry of the substrate and provides a whole new world of design options for owners and architects.

Aesthetics and function

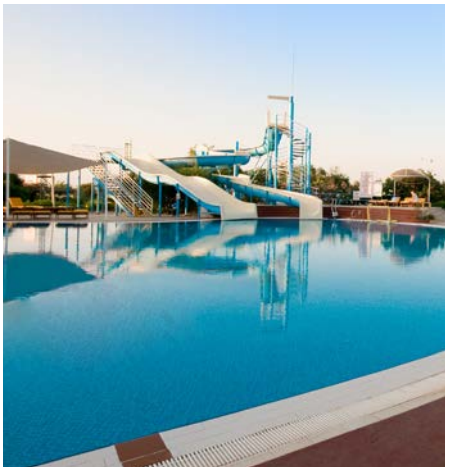
Revolutionary single product, single application, UV stable and color fast systems provide not only superior function but long term aesthetics without the disadvantages associated with multi product and multi coat systems.

Durability

Whether large or small, pools and lagoons are continuously exposed to mechanical stresses and stresses caused by UV sunlight, chlorine, chemicals and weathering . The VIP Leisureline systems are specifically designed to meet these challenges and will provide a long term, color fast, aesthetically pleasing, protective solution.

Slip resistant safety feature

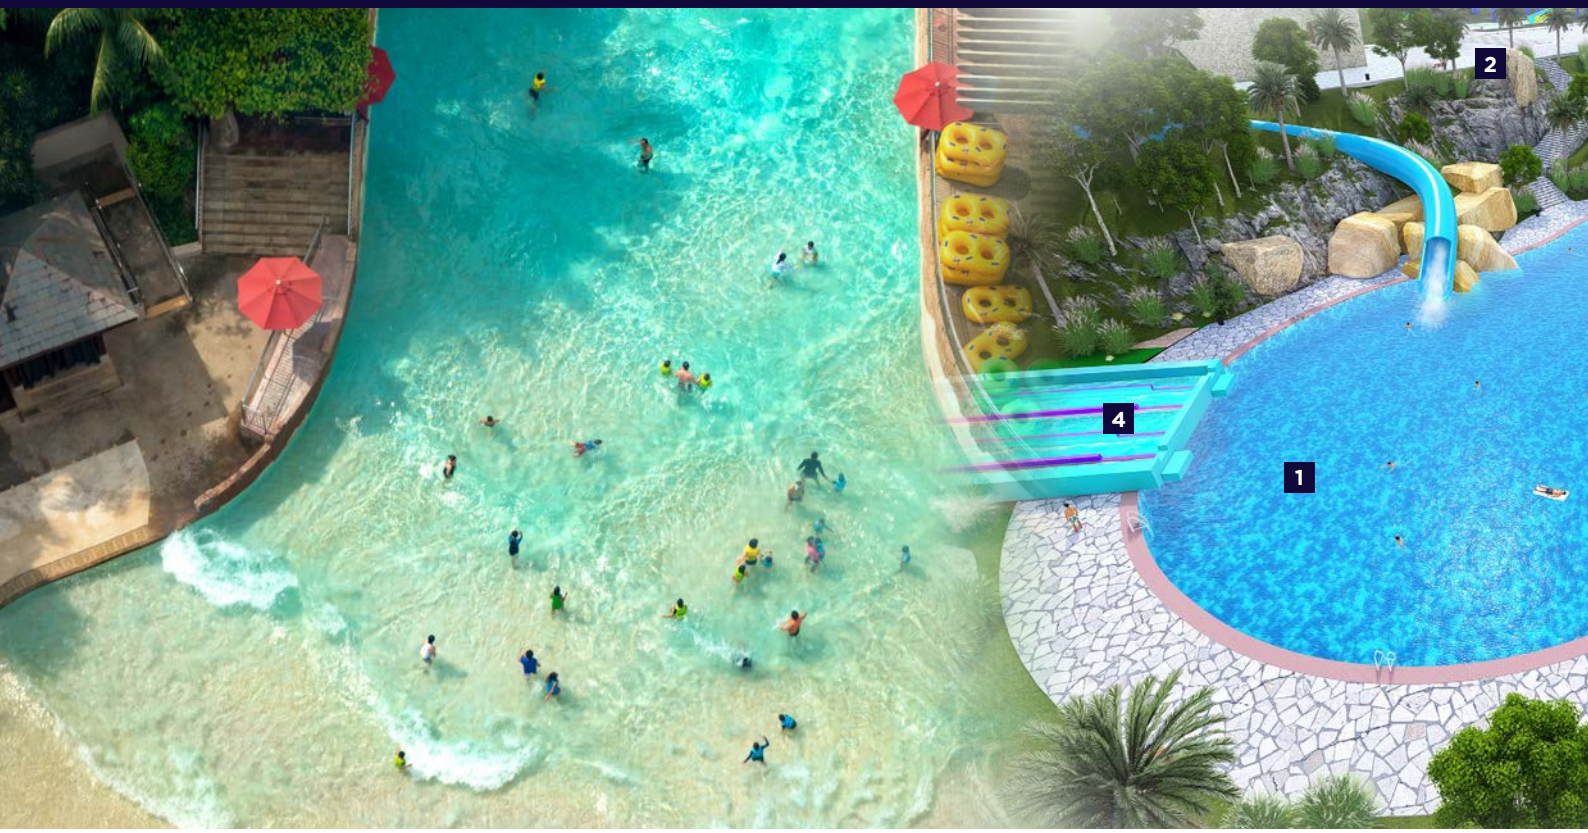
Spas, Pools or Waterparks need to safeguard visitors against slip injuries. VIP Leisureline products can incorporate slip resistant mediums including clear mediums for visually sensitive areas through to aggressive aggregates for pump rooms and workshop areas. Leisureline products can be incorporated into the decorative elements and walkways as a colorful and attractive, slip resistant feature



Successful track record

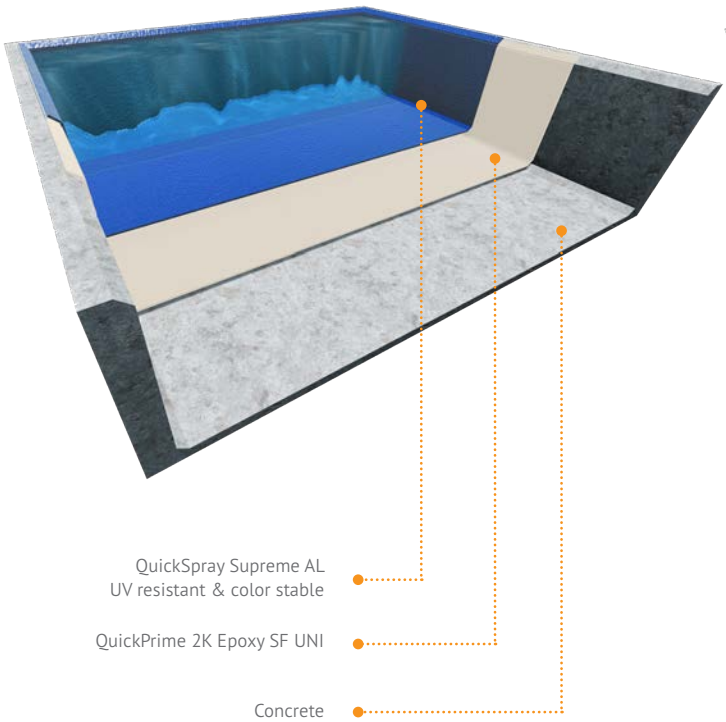
VIP Leisureline products have a proven history in lagoons, swimming pools, aquariums and in hotel and resort water features around the world. Public swimming pool applications have been operating maintenance free since 2008.

LEISURELINE SYSTEM



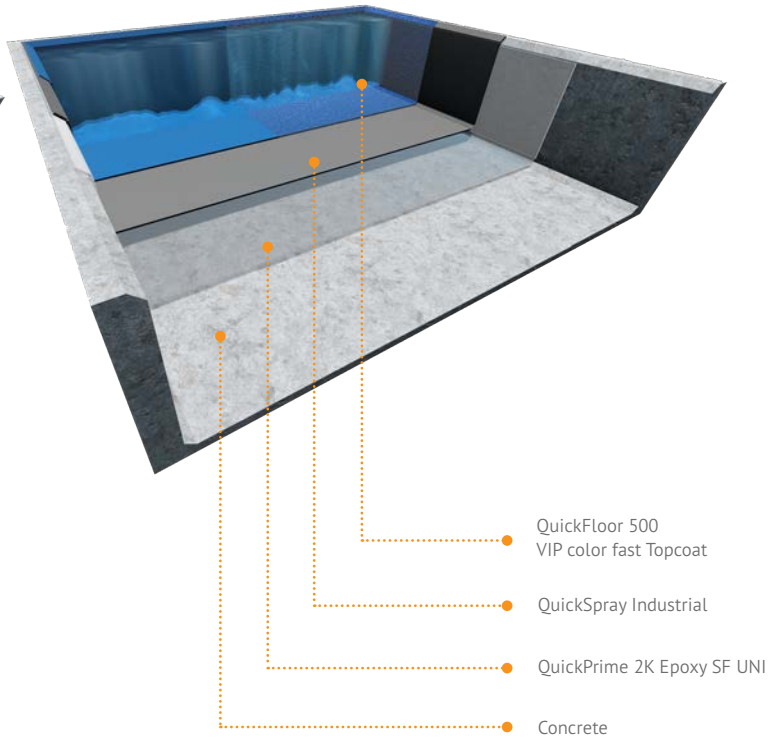
1 LEISURELINE Supreme

UV stable and color fast, one product, one application system for the ultimate lagoon protective lining system with slip-resistant options.



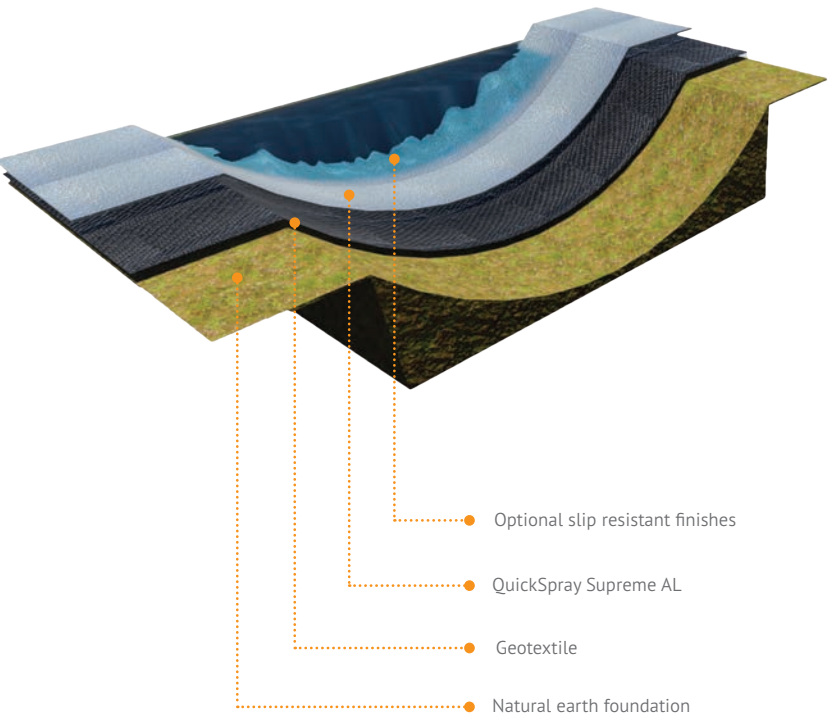
2 LEISURELINE Standard

Applied to concrete lined channels, ponds, water features and much more. Optional color fast top coats and slip resistant finishes.



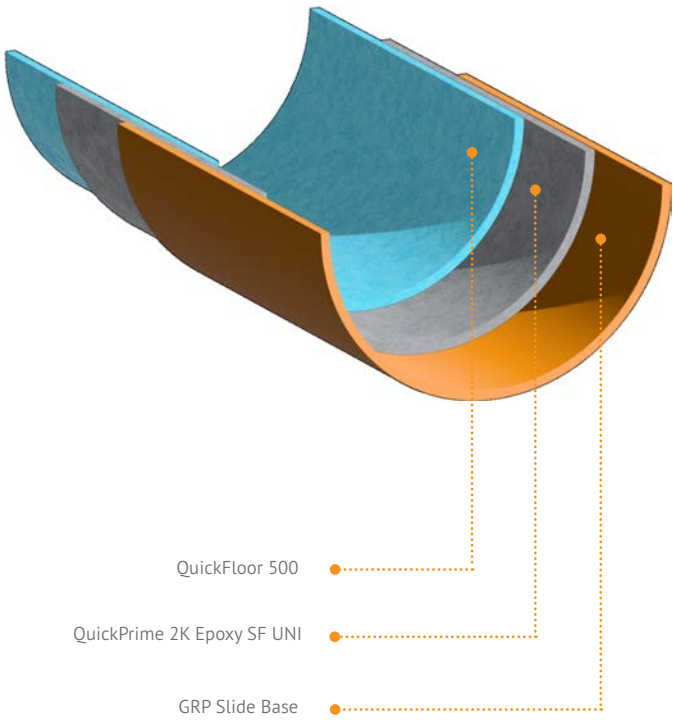
3 LEISURELINE Geo AL

LEISURELINE GEO AL is the perfect solution to save on expensive structural concrete in combination with a color-stable aliphatic polyurea.



4 LEISURELINE Slides

UV color stable low-friction abrasion resistant polyaspartic coating system for water slides



LEISURELINE KEY FEATURES

UV resistant & color stable

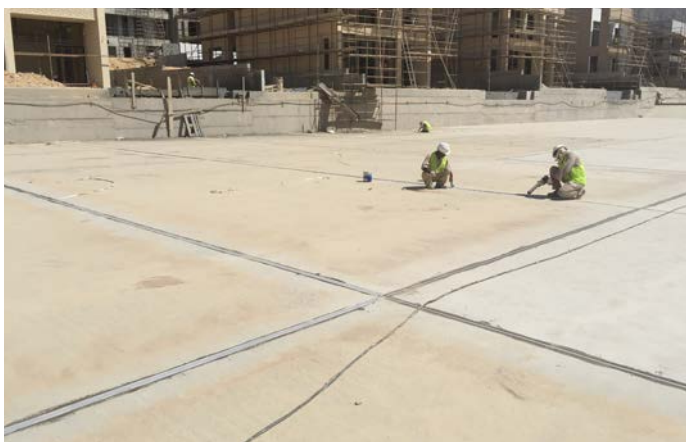
- UV stable coatings systems
- Single product, single application UV stable and color fast systems
- Aesthetically pleasing and functional finishes and color options
- Resistant to chlorine, salts and other water treatment chemicals

Excellent strength

- Very high tensile strength
- Very high impact and abrasion resistance
- Optimum resistance to high sheer forces
- High crack bridging ability
- Resistant to tearing and root penetration

Seamless & flexible

- Excellent elongation at break properties
- A seamless flexible finish that will not crack or peel



Quickprep repair products

- A full range of fully substrate compatible repair products are provided as part of the VIP Quickprep range
- Crack injection and filling materials can be overlaid within 10minutes

LINING SYSTEM RANGE

VIPSHIELD	Roof Waterproofing
QUICKDECK	Traffic Grade Waterproofing
LIQUISHIELD	Fluid Containment & Lining

MBRC DISTRICT ONE LAGOON (PHASE 2) UAE

Client	Nakheel
Coating Contractor	VIP Coatings Application Team
Location	Dubai, UAE
Area	3.046 m²
Construction Date	2024
VIP System	Leisureline

Mohammed Bin Rashid Al Maktoum City, developed by Meydan, spans 47 million square feet in Dubai and includes District Eleven, a family-oriented community with villas, mixed-use developments, and accommodations for Emirates Airline and Kent College of Canterbury. VIP Coatings was invited to propose and implement a visually appealing coating for an artificial beach in this area. After a thorough inspection, our team applied an innovative solution, creating a stunning artificial beach that closely resembles a natural one.

MBRC DISTRICT ONE LAGOON (PHASE 1), UAE

Client	Crystal Lagoons
Coating Contractor	VIP´s applicator network
Location	Dubai, UAE
Area	17.000 m²
Construction Date	2018
VIP System	Leisureline

This man made lagoon is the central focal point around which a new city is being built in honour of his Highness Sheikh Mohammed Bin Rashid Al Maktoum.
Initially designed to incorporate a 38 hectare crystalline lagoon with 14 kilometers of white sands, it will become the largest lagoon in the world once completed. Due to the success of the project, the developers have decided to add an additional 10 hectares of lagoon, taking the total lagoon area to 48 hectares.
Such a large and prestigious project required the very best waterproofing and substrate protection solution. VIP was chosen as the supply and apply partner for this project.

DUBAI BEACH CLUB , UAE

Client	Meydan Hotel
Coating Contractor	Gecko Coatings - Approved Applicator
Location	Dubai, UAE
Area	2.000 m²
Construction Date	2018
VIP System	Leisureline

The Meydan Hotel is Dubai's iconic hub of luxury and excitement, offering an unparalleled blend of experiences: It elevates its allure with the legendary Toy Room (imported from London's exclusive Mayfair scene) and the electrifying rhythms of Drai's Beachclub and Nightclub. For this prestigious project, the challenge was clear: a high-performance, ultra-functional water security membrane that also met the exacting aesthetic standards of such an elite venue. Thanks to VIP's decades of expertise and proven track record in delivering bespoke solutions, these demands were seamlessly fulfilled by the Leisureline Standard Lining System—combining flawless protection with uncompromising visual appeal.

FOUKA BAY LAGOON, EGYPT

Client	Tatweer Misr
Coating Contractor	Core - Hassan Allam
Location	North Coast, Egypt
Area	10.000 m²
Construction Date	2023
VIP System	Leisureline

We applied our Leisureline Coating System with an Antislip Sand Finish to the concrete surfaces around the stunning Crystal Lagoon at Fouka Bay on Egypt's North Coast. This summer destination, developed by Tatweer Misr, features a breathtaking turquoise lagoon nestled between villas and districts, enhanced by our durable and visually appealing coating solution.

SWAN LAKE EL GOUNA, EGYPT

Client	HASSAN ALLAM PROPERTIES
Coating Contractor	Core Engineering
Location	El Gouna, Egypt
Area	2.000 m²
Construction Date	2022
VIP System	Leisureline

Five hours drive away from Cairo, in the City of El Gouna, Hassan Allam Properties brought up the El-Gouna Crystal lagoon Beach Coating of the famous SWANLAKE where guests and home owners can enjoy a Tropical Beach vibe while staying 2 km away from the sea shore.

The lagoon was lined and designed by crystal lagoons and all the concrete beaches around it were sprayed and protected with a white sand finished LEISURELINE SUPREME based on Epoxy coating and a pure aliphatic polyurea coating QUICKSPRAY SUPREME.

FLOWRIDER SUFPARK, NORWAY

Client	RECREA
Coating Contractor	RECREA
Location	Telemark, Norway
Area	200 m²
Construction Date	2022
VIP System	Leisureline

Water, waves, and endless fun define FlowRider's surf parks. At Sommarland surf paradise in Telemark, Norway, a 200 m² FlowRider required renewal to restore its functionality. The old polyurethane coating had worn out, prompting our partner RECREA (Sweden) to collaborate with us on a tailored solution.
We implemented the LeisureLine Supreme System, enhanced with foam to replicate the Surfers Wave and ensure long-term durability. The result after applying our specific coating layers is a revitalized FlowRider, delivering an optimal wave experience built to withstand years of use.

MERAKI RESORT

Client	Madaar Development
Coating Contractor	-
Location	Sharm El Sheikh, Egypt
Area	3.000 m²
Construction Date	2022
VIP System	Leisureline

In Sharm El Sheikh, as part of the wide spread SUNRISE HOTELS chain, there was now built the Meraki Resort providing a private swimming pool for every ground floor room, in addition to some bigger shared swimming pools.
The pools have a curved shaped with many details. Also the concrete was not fairfaced since the initial plan was to finish the pools in tiles, but after all the designer switched to polyurea to be more in line with the architectural white theme. The cement plaster was well repaired, smoothened and rendered before the LEISURELINE STANDARD system was applied.

SWAN LAKE NORTH COAST, EGYPT

Client	Crystal Lagoons
Coating Contractor	Core Engineering
Location	North Coast, Egypt
Area	2.000 m²
Construction Date	2021
VIP System	Leisureline

Four hours to the north of Cairo, 2 hours to the west of Alexandria, on the Mediterranean coast north of Egypt, Swanlake is an exquisite private village with three crystal lagoons.
Though the lagoons are designed to have an HDPE liner over compacted soil, the beaches are concrete that need to be coated with a long-lasting waterproofing that is color stable, chemical resistant, abrasion resistant, and with a non-skid finish. For the first time in Egypt, QuickSpray Supreme AL was sprayed with white quartz sand to offer the needed finish..

IL MONTE GALALA LAGOON, EGYPT

Client	Tatweer Misr
Coating Contractor	Core Engineering
Location	Il Monte Galala, Egypt
Area	2.500 m²
Construction Date	2022
VIP System	Leisureline

What makes this lagoon in Egypt special, is that this is the first Crystal lagoon on the mountains.

The beaches were sprayed with an aliphatic polyurea coating with an anti-slip finish that was designed mainly to meet Crystal lagoons standards and requirements.

MERAKI RESORT

Client	Madaar Development

AZHA RESORT, EGYPT

Client	Crystal Lagoons
Coating Contractor	Core Engineering
Location	Ain El-Sokhna, Egypt
Area	16.000 m²
Construction Date	2022
VIP System	Leisureline

Located less than two hours east of Cairo, Ain El-Sokhna sits along the Red Sea coast, just a few kilometers south of the Suez Canal. This exclusive resort and private villa complex, part of the renowned Sunrise group of hotels, is home to one of the region's largest Crystal Lagoons.

It is also the second project in the area to feature our LEISURELINE aliphatic polyurea beach coatings with a sand-enhanced anti-skid finish, combining luxury with safety and durability.

DAMAC LAGOON, UAE

Client	Damac Properties
Coating Contractor	Gecko
Location	Dubai, UAE
Area	6.000 m²
Construction Date	2022
VIP System	Leisureline

Damac Hills 2 is a new community being built in the suburbs of Dubai and will eventually be home to 35,000 residents. One of the unique selling points for the developer is the construction of a large lagoon. The client was looking for a coating that would give long lasting protection, color stability and a natural beach looking finish. VIP's Leisureline was chosen as it has a successful track record of completing similar projects, quick completion of the coating and a long warranty.

SANTA ROSALIA LAGOON, SPAIN

Client	Crystal Lagoons
Coating Contractor	Core Engineering
Location	Murcia, Spain
Area	3.000 m²
Construction Date	2022
VIP System	Leisureline

The Laggon is located in the Santa Rosalia Lake and Life Resort in Torre Pacheco. It is an exclusive resort for property owners only. The resort has a 16,000 m² lagoon with a beach area and many facilities such as a beach club, restaurant, gym, stores and bars. The pool uses a special technology that ensures that the lake uses only half of the water normally used for a park with the same area. For the beach area VIP's decorative lagoon and pool lining system LeisureLine was chosen. LeisureLine brings together the proven physical and application advantages of VIP's spray applied, instant curing flexible industrial lining systems with the aesthetic requirements of decorative pool and lagoon features.

FLOWRIDER SUFPARK, NORWAY

Client	RECREA
Coating Contractor	RECREA

SUN CITY - WAVE POOL, SOUTH AFRICA

Client	Sun City Palace Hotel
Coating Contractor	Sanika
Location	Sun City, South Africa
Area	17.000 m²
Construction Date	2021
VIP System	Leisureline

The Sun City Palace Hotel is located in the Northeast of South Africa. It is surrounded by green nature and the Pilanesberg National Park.

VIP's decorative lagoon and pool lining system Leisureline was the right choice for the Sun City wave pool. It brings together the proven physical and application advantages of VIP's spray applied, instant curing flexible industrial lining systems with the aesthetic requirements of decorative pool and lagoon features.

MUNYAKA ESTATE LAGOON, SOUTH AFRICA

Client	Crystal Lagoons
Coating Contractor	SANIKA
Location	Midrand, South Africa
Area	10.000 m²
Construction Date	2022
VIP System	Leisureline

VIP Coatings together with our African Approved Applicator, ensured that this beautiful crystal-clear lagoon, the size of 7 rugby fields, is watertight and left residents in awe of the natural look and feel of its 6 beaches.
The project was completed using the VIP LEISURELINE system and all beaches have a non-slip finish with a real beach look-alike effect. VIP LEISURELINE system is an ideal lining system for public swimming pools, resort lagoons, artificial beaches, and marine applications requiring a high-performance, color-fast solution.

BANGI WONDERLAND, MALAYSIA

Client	Bangi Wonderland
Coating Contractor	-
Location	Kajang - Malaysia
Area	5.000 m²
Construction Date	2020
VIP System	Leisureline

Bangi Wonderland, a vibrant water theme park featuring various pools and fun attractions, faced recurring maintenance challenges. The previous coatings required repairs every 6 to 9 months, leading to high costs for both repairs and the draining/refilling of water. Additionally, peeling coatings posed safety risks to visitors.

To address these issues, a long-term solution was implemented using the VIP Coating System: Surface Preparation, Sealing & Priming, Leisureline Coating Application.

The entire project was completed within just 2 months, delivering a durable, safe, and cost-effective solution that ensures years of uninterrupted fun for visitors.

MINA SEYAHI WATERPARK, UAE

Client	Le Meridien Mina Seyahi Beach Resort and Water Park
Coating Contractor	Anticor
Location	Dubai, UAE
Area	500 m²
Construction Date	2020
VIP System	Leisureline

Le Meridien Mina Seyahi is a 5 star hotel located next to The Palm Jumeirah Island in Dubai.

The client has numerous pools for its guests and wanted to improve this offering with a waterpark. The coating system had to have excellent UV resistant properties and provide a long term maintenance free waterproofing and protective coating. Time was also an important factor as the park had to be opened in a very short timeframe.

LeisureLine Standard was approved as it met all of the clients requirements.

LEISURELINE PROJECT REFERENCES

LEGOLAND DUBAI, UAE

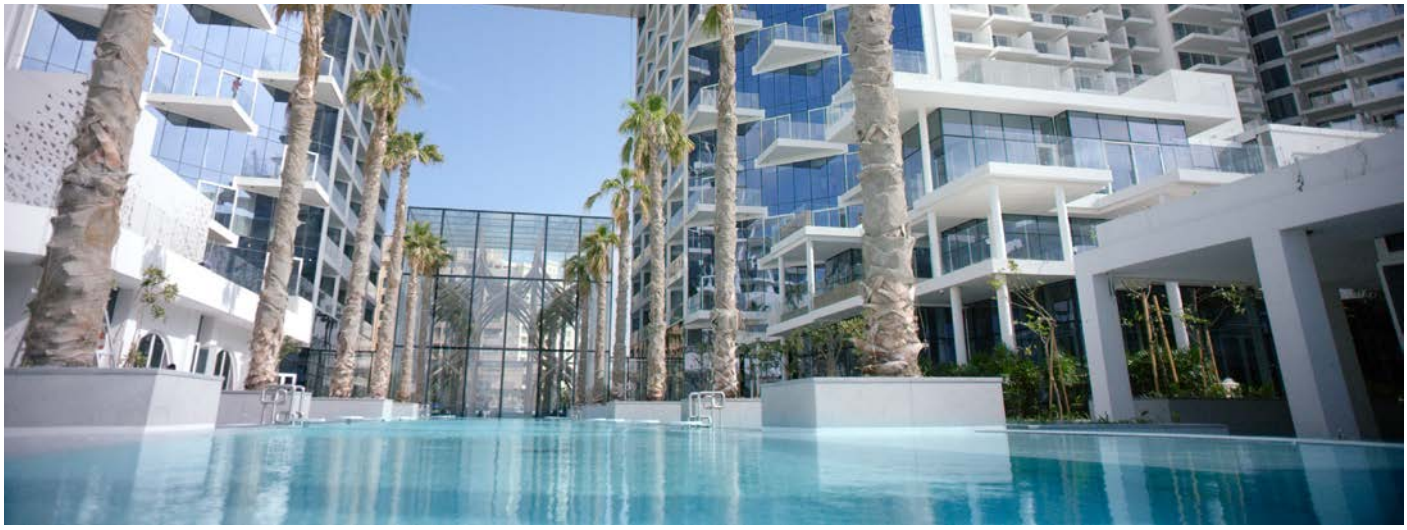
Client	LEGOLAND Dubai
Coating Contractor	VIP´s applicator network
Location	Dubai, UAE
Area	26.000 m²
Construction Date	2016
VIP System	Leisureline

Dubai Parks and Resorts opened in October 2016 and consists of three theme parks and one water park: Motion gate Dubai, Bollywood Parks Dubai, LEGOLAND Dubai and LEGOLAND Water Park.

VIP`s Leisureline Standard pool and lagoon lining system was applied to all concrete substrates exposed to pool water. LiquiShield Aqua, VIP´s potable drinking water approved systems was applied to drinking water storage facilities.

VIP Technical Services provided pre-project advice and on-site technical support during application to resolve unexpected site issues as they were discovered.

VICEROY PALM JUMEIRAH, UAE



Client	Viceroy Dubai Palm Jumeirah
Coating Contractor	AATS / Anticor Ltd
Location	Dubai, UAE
Area	14000 m²
Construction Date	2017
VIP System	Leisureline

An extraordinary landmark on the trunk of the iconic Palm Jumeirah, This project required a high performance highly functional water security membrane that could also meet the aesthetic demands of such an iconic building. VIP´s experience and excellent reputation in providing such solutions meant the solution demands were easily met by by VIP`s Leisureline standard lining system.

The greater challenge was meeting the installation and completion time given by the principal contractor in order to meet construction deadlines. VIP Technical Services project managed the installation of the lining system and despite extreme time pressures completed the project on time and to the fullest satisfaction of the customer.

ARTIFICIAL LAGOON NEAR MUSCAT, OMAN

Client	Omran and Saraya Oman Holding
Coating Contractor	VIP´s applicator network
Location	Muscat, Oman
Area	45.000 m²
Construction Date	2017
VIP System	Leisureline

The Saraya Bandar Jissah complex is located on the outskirts of Muscat on a beach surrounded by the Hajar Mountains. The two beach front Jumeirah hotels form the major leisure components of the complex, providing their guests with a luxurious and relaxing home.

One of the main attractions of the Saraya Bandar Jissah is the beautifull artificial lagoon. The entire area of the lagoon was sealed and protected with a VIP Leisureline system. Despite the beautiful scenic surroundings the environmental conditions are very challenging with extreme temperatures, high humidity, salty air and high levels of silt deposits in the lagoon area.

TILAL AL GHAF LAGOON , UAE

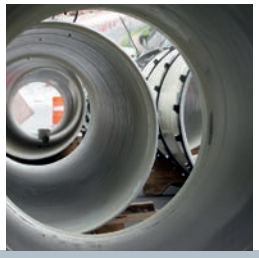
Client	Majid Al Futtaim Properties
Coating Contractor	VIP´s applicator network
Location	Dubai, UAE
Area	2000 m²
Construction Date	2018
VIP System	Leisureline

The new lagoon at the heart of the Tilal Al Ghaf is designed to the highest quality to meet the growing need for family units and integrated living.

The whole project was designed by Majid Al Futtaim - the leading shopping mall, communities, retail and leisure pioneer across the Middle East, Africa and Asia. VIP was awarded for supply and apply of VIP´s Leisureline decorative Lagoon and Pool lining systems.

LeisureLine brings together the proven physical and application advantages of VIP`s spray applied, instant curing flexible industrial lining systems with the aesthetic requirements of decorative pool and lagoon features.

VIP´S FAST TRACK COATING SOLUTIONS:
TOUGH, SUSTAINABLE & COST EFFECTIVE.



VIP is a leading solution provider of high performance surface protection systems. Our integrated system approach includes substrate repair and preparation products, priming and pre-treatment systems, high performance coatings and superior aesthetic finishes.
