CLEANCOAT CLEAN & HYGIENIC SURFACE COATINGS FOR FOOD & PHARMA

Seamless coating system for floor, wall & ceiling.
Easy to clean, aesthetic, durable and time-saving.

NEW CONSTRUCTION

RENOVATION

PROTECTING YOUR ASSETS

VIP's **CLEANCOAT** flooring system is based on the latest polymer technologies and has been formulated as an extremely fast curing commercial and industrial flooring system for use in the most demanding and time sensitive applications. **CLEANCOAT** displays excellent colour and gloss retention and is highly resistant to chemicals, impact and abrasion. User safety can be enhanced by the incorporation of special slip resistant surface finishes for applications in industrial kitchens, F&B industry, medical & pharma facilities, laboratories, shopping malls, walkways.

VIP **CLEANCOAT** system can be used as a clear sealer coat on polished concrete or as a single colour flooring system or as a decorative flooring system incorporating coloured quartz aggregates or coloured paint flakes. The choice is yours but the outcome is always a beautiful. Easy to clean, colour fast, non-yellowing, hard wearing superior floor finish.

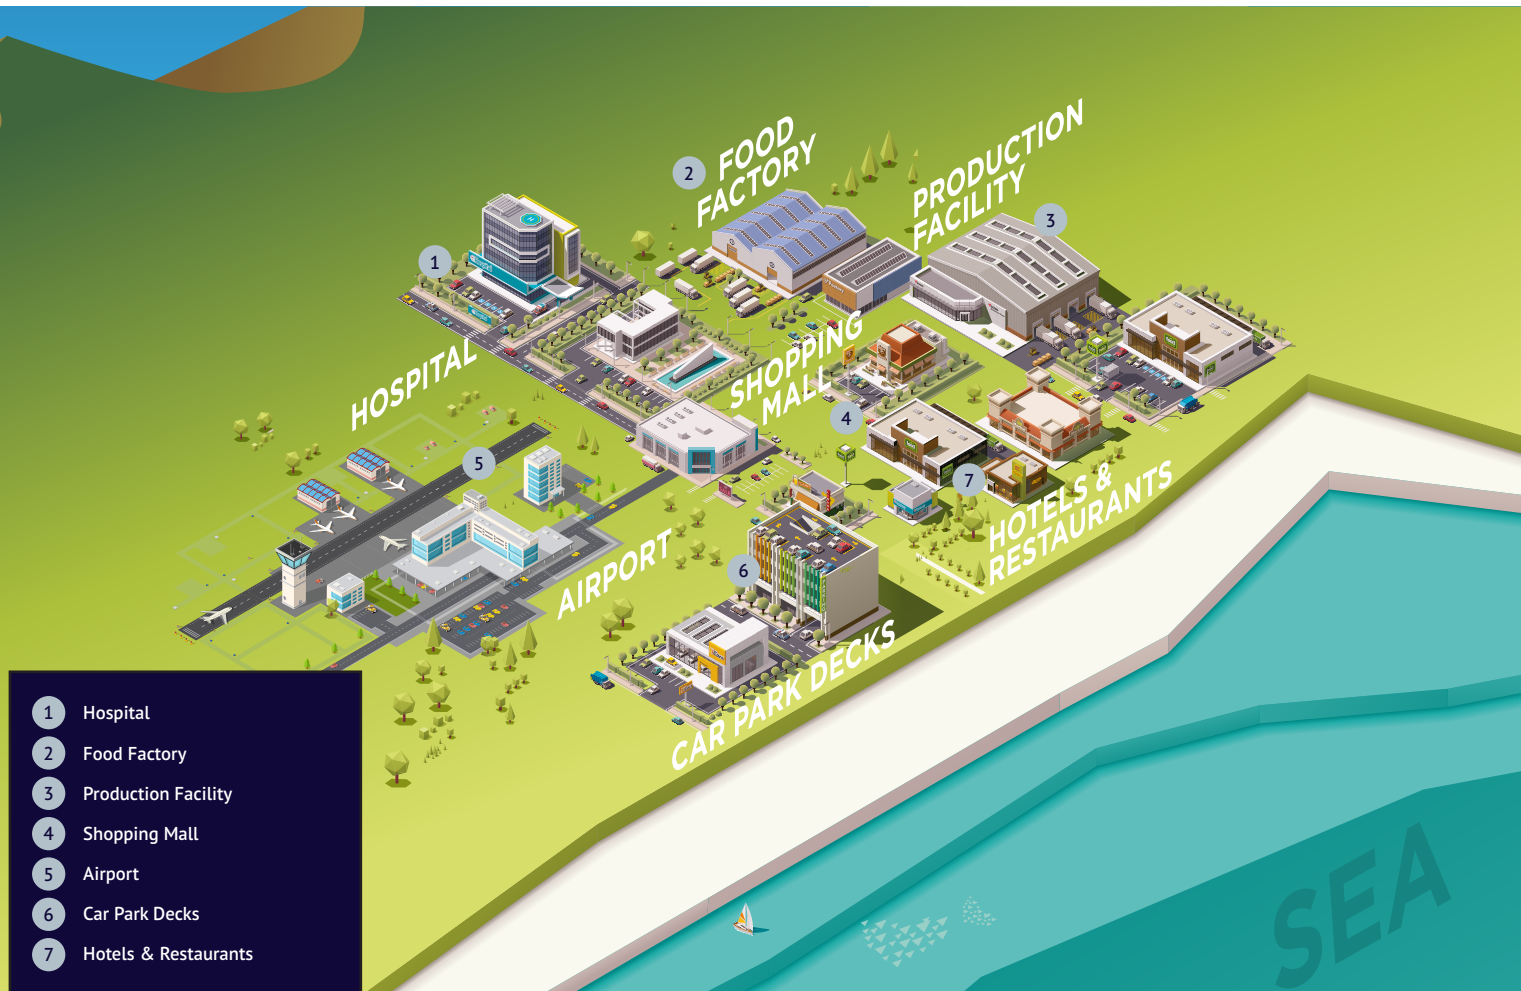

CLEANCOAT's unique chemistry provides very rapid tack free and cure times allowing overnight installations which result in significant savings to business operators. So if you want a superior floor overnight, then **CLEANCOAT** is your answer.

VIP CLEANCOAT has a solution for your flooring needs – whether that be residential, commercial or industrial.

VIP CLEANCOAT Key features

- Rapid application – squeegee or roller
- Tack free in as little as 45 minutes – extremely fast re-use times
- Excellent colour and gloss retention – no “yellowing”
- High abrasion and impact resistance
- High tensile strength with high elongation properties
- Excellent resistance to solvents and general chemicals
- Multiple Design options
- Does not suffer from “hot tyre peel”

VIP's fast track coating solutions: Tough, sustainable & cost effective

VIP SOLUTIONS

From humble beginnings in 1983 as a trading company specialising in automotive sealants and adhesives Voelkel Industrie Produkte (VIP) has grown into a Global specialist in high performance industrial adhesives and surface protection systems.

VIP's innovative technologies provide superior surface protection against abrasion, impact, corrosion and chemical attack. In addition our new technology, instant curing spray applied membranes offer significant benefits and advantages over traditional chemical and water containment solutions.

VIP is proud to support application partners in more than 50 countries around the World operating in the Mining, Oil and Gas, Water and Waste Water, Power and Construction industries. VIP's products are well supported with experienced technical services

ranging from project and product specification through to on-site project consultancy and VIP's world class training program continues to expand our network of "Approved Applicator" partners.

VIP's comprehensive portfolio is constantly refined and added to via our on-going commitment to research and development. VIP has solutions for substrate repair and preparation, priming and pre-treatment, high performance surface protection solutions, superior aesthetic finishes and specialized application equipment.

At VIP we aim to be more than just a product supplier. Our aim is to be a total solution provider for your asset protection needs.

CONSULTANCY

- Customisable solutions from the manufacturer
- Experienced technical specification services
- On-site technical supervision services
- Manufacturer trained and approved applicator network
- Extensive internal and external test results, certificates and approvals
- Reduced shut down times

TECHNOLOGY

- Completely integrated „system solutions“
- Very fast application process
- Self levelling
- Seamless – no welding, gluing or joining
- Excellent bond to the substrate
- Multiple Design options regarding colour and surface
- Impact, abrasion and chemical resistant
- High elongation and high tensile strength

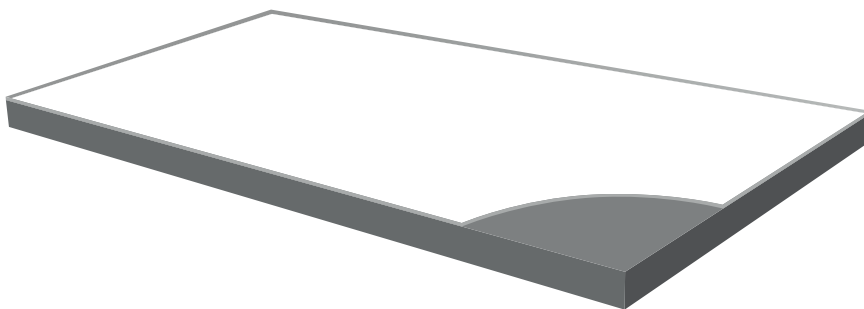

HOT SPRAY APPLIED PROTECTIVE COATING FOR WALLS AND CEILINGS IN SLAUGHTERHOUSES, COLD ROOMS AND FOOD WAREHOUSES.

LINING SYSTEMS OVERVIEW

CLEANCOAT SUPREME is a flame retardant coating system with high film formation for high performance applications in buildings and for interior surfaces. This aliphatic polyurea basecoat with high film formation offers fast operational readiness, easy cleaning and a high degree of flexibility.

CLEANCOAT SUPREME was developed for various substrates and resists many aggressive chemicals such as cleaning agents and disinfectants. It was developed to meet optical and above all the highest hygienic standards in the food and pharmaceutical industries.

- QuickSpray Supreme AL
- QuickPrime Epoxy SF (Primer for concrete)
- QuickPrime PU (Primer for metal)
- Substrate

SUPER FAST PROCESSING TIMES

Reduces downtime and stoppages to a minimum.

EASY TO CLEAN

Resists regular use of high-pressure jets and cleaning agents.

HIGH CRACK BRIDGING

Prevents cracking due to temperature load changes.

CHEMICAL RESISTANCE

Resistant to aggressive cleaning agents.

EXTREME ABRASION STRENGTH

Highest resistance due to high tear strength.

JOINTLESS SPRAY-PROCESSING

No joints, transitions and seams.
No accumulation of bacteria and dirt.

FDA CERTIFIED

Coatings are suitable for applications with occasional food contact.

B2 FIRE PROTECTION CERTIFIED

Now with B2 fire protection certificate!

NO VOC'S

Solvent free.

HIGH FILM THICKNESSES

Even out porous surfaces, facilitates cleaning.

HOT & COLD TEMPERATURES

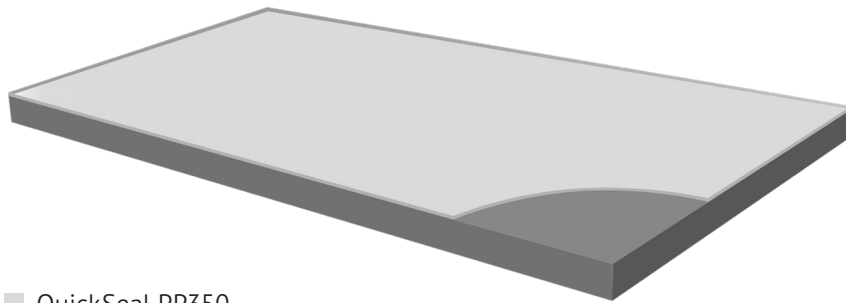

Resists extreme temperature fluctuations. Durable from -40°C to +150°C (dry) and 80°C (bass).

RETAIN OF THE COLOR GLOSS

Color-stable, uniform surface finish, aesthetic finish for highest demands.

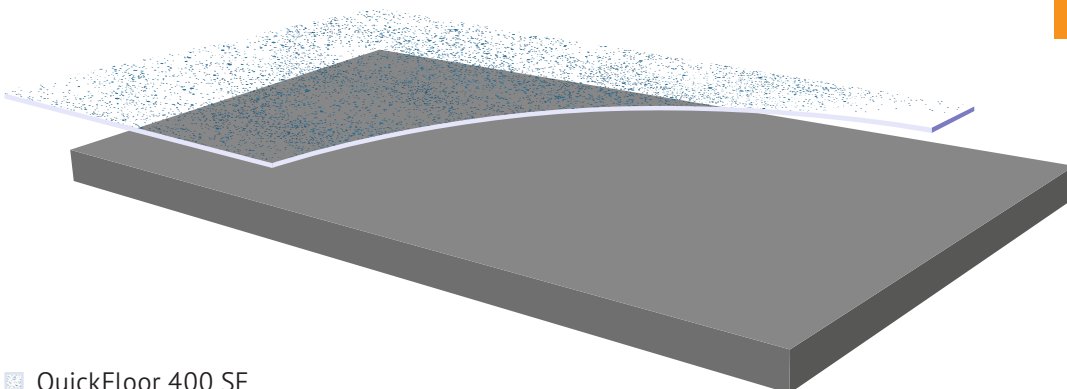

THE VALUE-PRESERVING FUNCTIONAL COATING FOR FOOD & PHARMA

CLEANCOAT ECO is an effective, easy-to-clean coating alternative to fiberglass and stainless steel wall surfaces. With a fast cure and high film build compared to conventional coatings, it allows for short downtime interruptions and provides a smooth finish. This coating system is ideal for cold storage, food processing plants and pharmaceutical facilities.

- QuickSeal PP350
- QuickPrime Epoxy SF (Primer for concrete)
QuickPrime PU (Primer for metal)
- Substrate

QUICKFLOOR is a fast curing, UV resistant, color stable, abrasion and chemical resistant polyaspartic coating suitable for floor coatings exposed to high vehicle traffic. It has excellent impact resistance to protect the coating surface from cracking or delamination in the event of impact from heavy loads or falling material during loading or unloading.

- QuickFloor 400 SF
- QuickPrime Epoxy SF
- Substrate

INDUSTRIAL FLOORING

CLEANCOAT systems are specifically formulated to stand up to the extremes of industrial and manufacturing environments. Ideally suited for manufacturing and assembly areas, forklift aisles and loading docks, **CLEANCOAT** systems withstand the constant abuse of heavy loads, impacts, forklift traffic and exposure to liquids and chemicals.

The flexural, compressive and tensile strength of the system gives it extreme durability. The seamless, impervious, slip-resistant surface gives it ease of cleaning and maintenance in the most demanding environments.

Food Industry

Food and beverage plants, where cleanliness and purity are paramount, it is very important that floors be covered with an appropriate protective coating. **CLEANCOAT** meets the requirement for a floor finish that is both hygienic and anti-slip.

Also the flooring withstands aggressive cleaning chemicals as well as boiling water, hot fat and oil spillages. Further it resists steam cleaning. The **CLEANCOAT** floors are extremely tough and durable.

CORE
FEATURES
OF OUR
CLEANCOAT
SOLUTIONS

COMMERCIAL FLOORING

Superfast reaction time

High chemical resistance

Environmentally friendly - VOC-free

Hygienic

High abrasion resistance

Impact resistance

Resistance to atmospheric attack

Colour fast

Moisture insensitivity

Thermal resistance

Retail shops require attractive, durable, easy to clean, long lasting flooring systems... and they need them installed fast! Time is money and to have a retail outlet closed for days is costly. VIP's **CLEANCOAT** system can in many cases be installed over night and business can commence again the next day. The savings to the proprietor can be significant. A superior floor finish and no loss of business – that's a VIP solution!

Public Assembly Facilities

From seating areas and concourses to the concession areas in stadiums and public auditoriums, kitchens, restrooms and locker rooms, they all require hygienic easy to clean durable flooring systems. Incorporate our optional slip resistant surface finish and a VIP **CLEANCOAT** flooring solution is the ideal solution for your flooring application.

HOSPITALITY & HEALTHCARE

Hospitals

A pleasant hospital environment can not only help ensure a boost in morale for both patients and staff, it can also support the healing process itself. Hospital floor coverings can play a major role in providing that kind of positive, healthful environment.

From the emergency room to patient rooms, exam rooms, nurses stations and even waiting areas, your hospital can offer an environment that supports patient healing with the help of **CLEANCOAT** flooring solutions. Providing comfort underfoot and attractive designs, our hospital flooring meets the most demanding specifications for safety, hygiene and support for medical procedure.

Hotels

Behind bars, commercial kitchens, dining room floors, loading bays and commercial bathrooms all require a seamless hard wearing, easy to clean and durable floor. However to achieve all this plus more overnight it needs a VIP solution.

VIP's **CLEANCOAT** system not only provides superior physical, colour and gloss benefits but it can all be achieved in a fraction of the time normally associated with other commercial flooring systems. For hoteliers and restaurants that cannot afford to have their facilities closed down for flooring installations VIP **CLEANCOAT** is the answer. Resistant to food acids and cleaning alkalis and being easy to clean **CLEANCOAT** is an ideal hygienic flooring system for hotels and restaurants. Incorporate our slip resistant surface option and you have a safe, healthy, durable beautiful flooring solution.

Commercial Kitchens

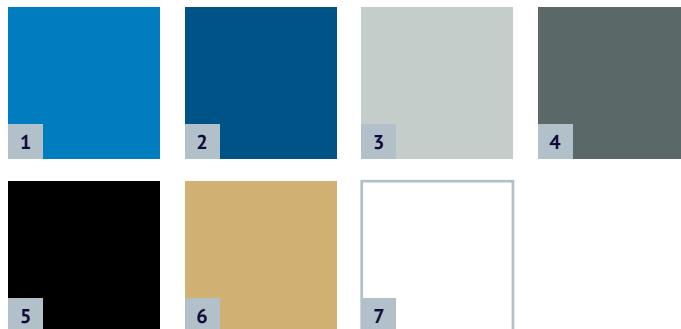

CLEANCOAT meets all requirements for safety and hygiene, while providing a floor that is attractive, slip resistant, durable easy to clean and installed with minimal downtime.

DESIGN AND COLOURS

VIP Pigments PUA/PAS

All QuickFloor systems are available in seven standard colors. Colors shown are approximate, actual color will vary with product grade and site conditions.

No.	Colour	Similar to
1	Pigment Sky Blue	RAL 5015
2	Pigment Dark Blue	RAL 5005
3	Pigment Light Grey	RAL 7035
4	Pigment Dark Grey	RAL 7005
5	Pigment Deep Black	RAL 9005
6	Pigment sand yellow	RAL 1002
7	Pigment white	RAL 9010

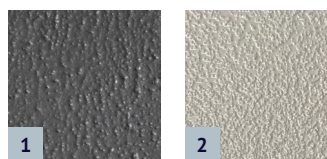

Other pigments on request, all pigments can be combined with **QuickFloor Flakes and Aggregates**.

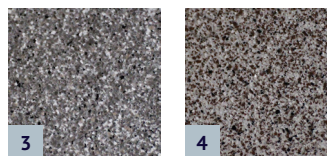

Aggregates and Flakes QuickFloor System

VIP Paint flakes can be broadcast by hand. For the best results VIP recommends broadcasting the paint flakes using VIP's "QuickFloor Flaketec dispensing gun".

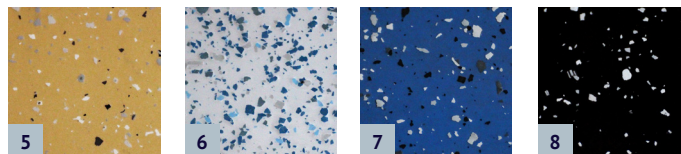

No.	Aggregate Blends
1	Anti Skid Aggregate on grey base
2	WSF Aggregate

No.	Mini Flake Blends
3	Mini Flakes Granite Grey
4	Mini Flakes Granite Brown

No.	Flake Blends
5	Flakes Mustard Spec on creme base
6	Flakes Night Sky on grey base
7	Flakes Star Black on blue base
8	Flakes Star Black on black base
